

Córdoba – Priego de Córdoba (via Lucena)

1. Going out of Cordoba taking the A-45 direction to Málaga
2. Being close to Lucena take the exit: Lucena (North)- Puente Genil, KP. 56. A-318.
3. Being on the A-318, go towards Lucena and Cabra.
4. Going out of the road A-318 and then taking the A-339 up to Priego de Córdoba.

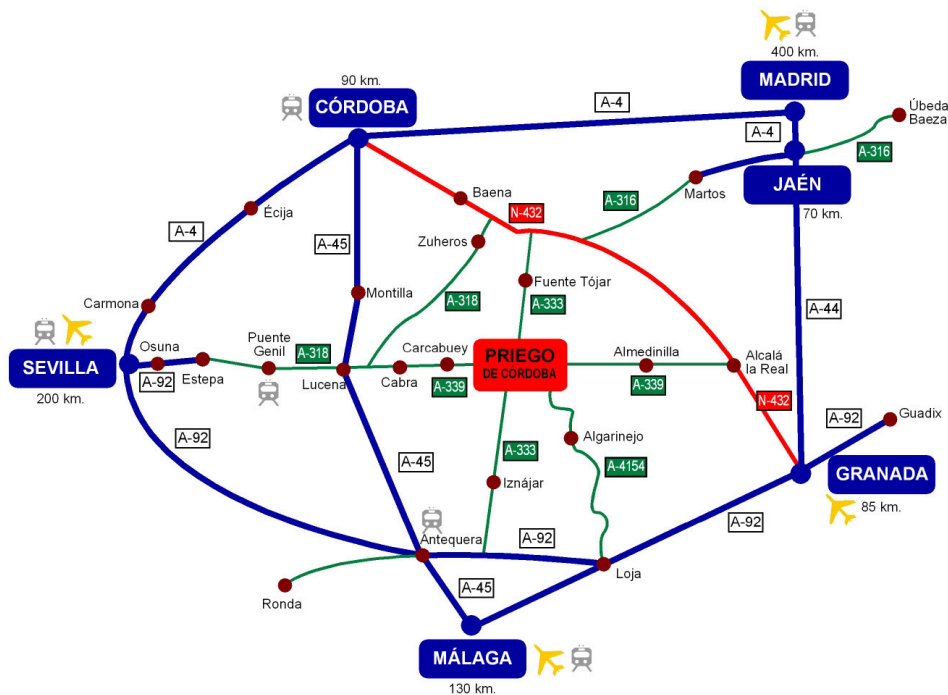

To take into account:

- The current A-318 and A-339 roam along the ancient A-340.
- After passing Lucena, go towards Cabra, Carcabuey and finally Priego de Córdoba
- Being already at Priego's municipal term, there are four possible incomes to accede to the urban core, the first and the third are the most recommendable ones.
- To enjoy the landscape of the Natural Park of the The Sierras Subbéticas, giving special attention to animals which may cross the causeway.

Distance: 100 km approximately.

Have a nice trip and remember to respect the speed and the safety distance

Córdoba – Priego de Córdoba (via Baena)

1. Going out of Córdoba taking the road N-432 direction to Granada
2. Going towards Espejo, Castro del Río y Baena, and then continuing until the crossing of the roads N-432 with the A-333.
3. The tour mentioned up to Priego is of approximately 17 km.

To take into account:

- To take the new Baena's ring road and to pay attention to the road that passes through the villages of Espejo and La Estación de Luque.
- The crossing of the roads N-432 with the A-333. There is just one signalpost.
- The several shady curves in the last kilometers of the road A-333.
- Being already at Priego's municipal term, there are four possible incomes to accede to the urban core, the first one (towards the left side) and the second one (towards the right side) are the most recommendable ones.
- To enjoy the landscape of: the countryside near Córdoba, El Puente de San Juan (The provincial limit between Jaén and Córdoba), and the Angostura's gorge.

Distance: 105 km approximately.

Have a nice trip and remember to be aware of the road.
